### Call for Abstracts: The Bio LawLapalooza!

*The Journal of Law and the Biosciences and the Stanford Center for Law and the Biosciences, will host the first annual Bio LawLapalooza Conference at Stanford Law School on Thursday afternoon and all day Friday, April 20 and 21. We hope this will provide a forum for people interested in Law and the Biosciences to gather, talk, and share insights, following the precedent of Patent Con, among other conferences. Registration is free but participants will be responsible for their own travel and accommodation expenses; much meals will be included.*

*Titles and abstracts of proposed presentations are due on February 14, 2017. The peer-reviewed Journal of Law and the Biosciences will welcome submissions coming out of the conference. Please contact Hank at [hgreely@stanford.edu](mailto:hgreely@stanford.edu) with any questions.*

### Website Launch: Women in Brain Stimulation

*WomeninBrainStim.com is a database site that will allow female brain stimulation researchers to register their details, research interests and achievements. This open and searchable database aims to help conference organisers to identify appropriately qualified female speakers, as well as promoting female candidates for advisory groups, committees, editorial boards etc.*
