Dear esteemed colleagues, collaborators, and alumni:

This year (June 2016), the Neuroethics Research Unit celebrated its 10th year of activity. Reflecting on this decade of work, it is obvious that the strength and support of our colleagues and collaborators has been pivotal to our achievements over this time. We have worked with you in different capacities: we have collaborated on papers, book chapters, and committees, you have trained or joined us here in Montréal for conferences and research visits, or you have invited Unit members to visit your own conferences and institutions.

As we celebrate the holiday season and this important milestone, we wanted to express our gratitude for your collaboration and contributions.

On behalf of the Neuroethics Research Unit, I would like to extend our best wishes for a happy holiday season and New Year. We look forward to connecting with you in 2017 and to the collaborations our next decade of work is sure to bring!

Warm regards,

Eric Racine, PhD  
Director and Full Professor, Neuroethics Research Unit

## Announcements | Annonces

Chers collègues, collaborateurs anciens et actuels:

L'Unité de recherche en neuroéthique a célébré ses 10 ans d'activités en juin 2016. Passant en revue cette décennie de travail, il semble évident que les forces mises en action et le soutien que vous avez apporté ont eu un effet décisif sur les activités de cette période. Nous avons travaillé ensemble à bien des niveaux: nous avons œuvré à la rédaction de plusieurs articles, chapitres de livres et participé de concert à des comités. Vous nous avez offert des formations ou vous êtes joints à nous à l'occasion de conférences et visites de recherche. Vous avez également invité certains membres de l'Unité à prendre part et à assister à des conférences au sein de vos propres institutions.

Alors que nous célébrons la période de fin d'année en même temps que cet événement marquant, nous désirons exprimer notre gratitude pour votre participation et vos contributions.

Au nom de l'Unité de recherche en neuroéthique, j'en profite donc pour vous souhaiter de joyeuses fêtes ainsi qu'une heureuse nouvelle année. Nous nous réjouissons déjà de vous retrouver en 2017, mais aussi pour le travail commun que les dix années à venir nous promettent déjà!

Bien chaleureusement,

Eric Racine, PhD  
Directeur et Professeur titulaire,  
Unité de recherche en neuroéthique
